

Proud to Serve the Los Altos Community

5 Ways To Save!

1. Have Mission Trail come and do a waste audit.
2. Buy recyclables and avoid Styrofoam, Mylar and hazardous material.
3. Ask customers to use their own bags and reuse them.
4. Collect bottles and cans.
5. Get the wet waste out of the recycling and trash.

3 Bin System

Create a 3 bin system inside the office to assist employees and customers to help separate trash, recycling and organic waste.

Inside your business:

1. Purchase a small black garbage receptacle for Mylar, Styrofoam and other contaminants that are not recyclable.
2. Purchase a blue receptacle for all recyclable cans, bottles, paper, cardboard, and metals
3. Purchase a green receptacle or compost bin for food scraps and wet organic material

Cardboard Reminders

Flatten and/or cut your boxes to make as much room as possible in your Recycle bin. Place shredded paper inside a paper bag to prevent flyaways.

Have extra recycle?

Cut and bundle your extra cardboard down to a size that will fit directly inside the recycle bin. The driver will not reload the bin with cardboard that will not fit back in the bin.

Did You Know?

Recycling one ton of cardboard:

- Saves 390 kWh of energy
- Saves 1.1 barrels (46 gallons) of oil
- Saves 6.6 million Btu's of energy

Holiday Service Reminders

Service will be provided as usual during the weeks of Independence Day and Labor Day.

Need Organic Service?

Do you generate more than 4 cubic yards of solid waste per week and do not have organic service? Give us a call at 650-473-1400 so one of our representatives can discuss options for an organic service for your business to be compliant in Assembly Bill 1826.
