

#### Proud to Serve the Los Altos Community

#### Want to Save Some Green?

#### Start a composting & recycling program at your business!

The DeMartini Orchard saves over \$1,100 each month by participating in Mission Trail's recycling and organics programs. "It was so easy," says owner Craig Kozy. "We set up the bins and that was it!" The quality produce provider recycles/composts 85% of their waste, including their cardboard which was previously sent to the land-

was previously sent to the landfill. Posters indicating service days and what goes in each color-coded collection container make the process even simpler.

Contact Mission Trail Waste Systems to help your business set up an efficient and cost saving program today!

Come check out DeMartini Orchard's quality produce at 66 N. San Antonio Road or on the web at www.demartiniorchard.com.

#### Recyclable or Organic? Organic or Garbage?

Mission Trail is happy to provide Los Altos' businesses with full-color, graphic-rich posters showing what materials belong in each collection container. The free posters are hand-delivered on request. Contact us today to get yours!

# Did you know? Natural wine cork can go in the ORGANICS container!

#### Service Tip: Bulky Items

Mission Trail can handle the removal of most large pieces of furniture and appliances. Contact us for applicable rates and to schedule a pick-up.

### Still Receiving a Paper Invoice?

For customer convenience, Mission Trail offers paperless billing. Consider paying by automatic bank or credit card transactions, or by logging into your account. Visit www.MissionTrail.com for details.

## Is Your Business as Green as it Gets?

The Bay Area Green Business Program distinguishes small businesses that protect, preserve and sustain our environment. To see if your business meets their standards, visit

#### www.greenbiz.ca.gov.

More than 20 local businesses have already earned the Green Business designation! Mission Trail Waste System representative Denise Donahue reminds you to...

Our friendly representatives will suggest methods for reducing waste and making the most of our collection programs. They'll also help make sure you have the collection containers and training materials you need.
