

Proud to Serve the Los Altos Community

Help Keep Our Trash and Recycling Collectors Safe

Our first responders are brave men & women from our police force, fire departments, hospitals, grocery stores, delivery companies and of course our valuable waste collectors.

During these unprecedented times, we need your help to continue to keep our essential employees safe by adding a few additional preventive measures. As we learn how to function in this COVID-19 era, there are four (4) precautions we can collectively do as a society to help our waste collectors and other essential workers stay safe while they continue to provide their necessary services:

- ✓ Ensure bins and bags are closed and sealed properly.
- ✓ Place proper waste and recycling materials in the correct bins.
- ✓ On your scheduled service day place bins at curbside 18" to 24" inches apart.
- ✓ If you need more service, please call Mission Trail at 650-473-1300.

Earth Day April 22, 2020

To celebrate and continue to assist in reducing our carbon footprint, these 4 reduction strategies are a positive way to help:

Know the rules – Understand what material goes in what residential bin. For more information visit www.missiontrail.com/LosAltos/

Organics - Food waste is a huge source of waste in our landfills. Composting is an excellent and environmentally friendly way to dispose of your food & table scraps.

Be mindful of discarding electronics <https://missiontrail.com/LosAltos/residential-hazardous.html>. E-waste adds metal and plastic if not properly discarded. Computers, printers, televisions, fax machines, VCRs, stereo components, video game players, require special handling. Through Mission Trail's Cleanup/Bulky Item Collection Program, Los Altos residents can have one E-waste item collected for no charge every six months. Alternatively, residents can deliver E-waste to any number of free collection sites. For a list of sites, visit www.hhw.org, www.calrecycle.ca.gov/Electronics, and www.recyclestuff.org.
