## SB1383

**Beginning in 2022 SB 1383 requires every jurisdiction to provide organic waste collection services to all residents and businesses.** What are the benefits of waste diversion and maintaining landfill capacity? There are several benefits to a strong landfill diversion plan, including:

- Reducing the environmental footprint and preserving scarce landfill capacity
- Protecting and creating cleaner and safer commercial spaces
- Strengthening and expanding on current recycling initiatives within the organization you own or manage
- Controlling costs and maximizing bin space due to proper source-separation of materials
- Appealing to environmentally conscious consumers and taking pride in making sure we are doing the right thing
- Businesses will inform employees, contractors, tenants, and customers annually about organic waste recovery requirements and about proper sorting of organic waste
- Commercial edible food generating businesses can partner with food recovery organizations to ensure any edible food is eaten

## Fine Art in the Park

Please join us at the Los Altos Rotary "Fine Art in the Park" on August 13-14 in Lincoln Park, 199 University Ave, Los Altos. Over 150 juried artists show and sell their paintings, sculptures, textiles, jewelry, and wood and glass works. Meet the artists and enjoy live music, food, craft beer and fine wine. 100% of the proceeds support Los Altos Rotary's charitable programs helping those in need, locally and internationally. # REMINDERS

**Please keep all commercial trash and recycling enclosures clean.**

Debris found on the floor can become stuck in the wheels or create a slippery surface where our drivers cannot get enough leverage to move the bins. Please make sure your enclosure area is kept clean and free of ground debris so our drivers can safely service all the Los Altos commercial businesses.
