Safety Requirements

- Please be aware of low hanging power lines and cable lines that are below 14 feet from the ground. Please contact your cable provider to have the lines raised above this height.
- All trees & branches must be cut back from the street and cut to a height of 14 feet from the ground.
- All portable basketball hoops need to be off the street on your service day; especially residents living on cul-de-sac. Basketball hoops create a safety issue for our drivers when they are left out.
